

## **1. Eligibility**

Tampa Electric's Energy Management Incentive Program offers incentives to any new or existing commercial/industrial customer on firm rates who install qualifying projects

## **2. Qualifications**

Minimum qualifying efficiency ratings are as follows:

- a. Electric Package Terminal Air Conditioners (PTAC)  
(>7,000 Btu/h and < 15,000 Btu/h) – EER 11.5
- b. Electric Unitary Air Conditioners (< 65,000 Btu/h) – EER 11.5  
Electric Unitary Air Conditioners (>65,000 Btu/h and < 240,000 Btu/h) – EER 10.5  
Electric Unitary Air Conditioners (>240,000 Btu/h and < 760,000 Btu/h) – EER 10.5

## **3. Incentive Amounts**

Customer incentive is \$0.0025 per Btu (which represents approximately \$30 per ton)

## **4. Application and Worksheets**

With their applications, Contractor/Customer shall provide Air Conditioning and Refrigeration Institute (ARI) certified energy efficiency data. In lieu of ARI certification, energy efficiency data based on ARI Standard 310-897 may be utilized. Tampa Electric will review all applications and accompanying worksheets for eligibility. If any proposed project does not meet program requirements, Tampa Electric will notify Customer, specifying the basis for rejection of the application.

## **5. Final Inspection and Incentive Payment**

When installation is completed, customer must notify Tampa Electric and submit original invoices (or direct photocopies) specifying the type, quantity and price of all materials purchased and installation costs. Tampa Electric will then schedule and conduct a post-installation inspection.

The actual incentive amount will be determined based on the inspection, and may vary from the original estimate.

## **6. Tax Liability and Credits**

Tampa Electric is not responsible for any taxes which may be imposed on the Customer's business as a result of projects installed under this program. The Customer's tax adviser should be consulted about the taxability of the rebate and the availability of tax credits. Customers must provide their tax I.D. or Social Security number on the application form.

## **7. Resolution of Differences**

In the course of this program, disputes may arise regarding Customer's eligibility, energy-saving potential of proposed projects, incentive amounts or other issues. Customer may submit data to Tampa Electric in support of their position. However, Tampa Electric determination on these issues will be final.

## **8. Disclaimer**

Tampa Electric does not guarantee that implementation of energy conservation measures or use of the equipment pursuant to this program will result in energy or cost savings. Tampa Electric recommends that Customers consider engaging qualified engineers or other consultants to evaluate the effects of such implementation and use on energy consumption, cost savings and the operation of Customers' facilities.
