Approved Incentive Amount \$ _____ (Ceiling – SqFt x \$0.05; Wall – SqFt x \$0.20)

Mail or fax to: Tampa Electric Company, C/O Energy Management Services, P.O. Box 111, Tampa, FL 33601 Fax number: (813) 228-4140

1. Eligibility

Tampa Electric's Energy Management Incentive Program offers incentives to any existing commercial/industrial customer on firm rates who install qualifying projects.

2. Qualifications

Only areas with a dedicated electric HVAC system are eligible.

- **Applies to Ceiling Insulation Installs** – The existing insulation level must be less than R-12. Customers must add a minimum insulation value of R-11 based on a manufacturer's specification card. Resulting total R-values achieved will range from R-19 to R-23. Where roof pitch limits accessibility, an R-11 must be added.
- **Applies to Wall Insulation Installs** – The existing wall insulation level must be less than R-6. Customers must add a minimum insulation value of R-6 based on a manufacturer's specification card.

3. Incentive Amounts

- The maximum incentive amount for **ceiling insulation** will be \$0.05 per square foot of area installed per customer.
- The maximum incentive amount for **wall insulation** will be \$0.20 per square foot of area installed per customer.

4. Application and Worksheets

Contractor or customer shall provide heat gain and heat loss calculations sheets along with program application. Tampa Electric will review all applications and accompanying worksheets for eligibility. If any proposed project does not meet program requirements, Tampa Electric will notify Customer, specifying the basis for rejection of the application.

5. Final Inspection and Incentive Payment

When installation is completed, customer must notify Tampa Electric and submit original invoices (or direct photocopies) specifying the type of insulation material, and installation costs. Tampa Electric will then schedule and conduct a post-installation inspection.

The actual incentive amount will be determined based on the inspection, and may vary from the original estimate.

6. Tax Liability and Credits

Tampa Electric is not responsible for any taxes which may be imposed on the Customer's business as a result of projects installed under this program. The Customer's tax adviser should be consulted about the taxability of the rebate and the availability of tax credits. Customers must provide their tax I.D. or Social Security number on the application form.

7. Resolution of Differences

In the course of this program, disputes may arise regarding Customer's eligibility, energy-saving potential of proposed projects, incentive amounts or other issues. Customer may submit data to Tampa Electric in support of their position. However, Tampa Electric determination on these issues will be final.

8. Disclaimer

Tampa Electric does not guarantee that implementation of energy conservation measures or use of the equipment pursuant to this program will result in energy or cost savings. Tampa Electric recommends that Customers consider engaging qualified engineers or other consultants to evaluate the effects of such implementation and use on energy consumption, cost savings and the operation of Customers' facilities.

TAMPA ELECTRIC MAKES NO WARRANTIES, EXPRESS OR IMPLIED, OF ANY EQUIPMENT PURCHASED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE OR OF SUCH EQUIPMENTS' COST EFFECTIVENESS. IN NO EVENT SHALL TAMPA ELECTRIC BE LIABLE FOR ANY CONSEQUENTIAL DAMAGES.
