Timer Device (Timed Service)	\$6.81	\$1.29
PT Bracket (accommodates two post top fixtures)	\$3.85	\$0.05

LIFE RUNS ON ENERGY®

Important Rate Information for Lighting Customers

This bill insert contains important information about your 2010 electric bill, including fuel charges and electric base rates.

Each January, Tampa Electric puts into effect the fuel charges that were approved by the Florida Public Service Commission (FPSC) in the company's annual fuel filing. Fuel costs are passed through from fuel suppliers to our customers with no markup or profit to Tampa Electric. The reduced fuel charges are due to lower natural gas cost projections for 2010 and the company's ongoing cost management efforts.

Also effective with your January 2010 bill is a base rate increase recently approved by the FPSC and originally associated with the rate increase authorized by the FPSC in April 2009. This increase reflects cost recovery for five new peak generating units and new rail facilities installed this year. The increase has been granted subject to refund, pending further review and a hearing at the FPSC.

If you have any questions about your lighting account, please visit tampaelectric.com/residentiallightning or tampaelectric.com/businesslighting or call Customer Care and follow the prompts for street lighting.

These rate schedules are subject to gross receipts taxes, city and state taxes, and franchise fees, where applicable.
The energy charge includes conservation, environmental and capacity cost recovery charges of 0.755 cents per kWh.
The fuel charge is used to pay the fuel suppliers and does not profit Tampa Electric.
A customer charge of \$10.50 per month will be added to metered (customer-owned) street lighting accounts.
