

Brighten your outdoors with confidence

backed by 125+ years of expertise.

Offering Bright Choices for over a century

Since installing downtown Tampa's first electric streetlight in 1887, Tampa Electric has delivered reliable and innovative outdoor lighting solutions. Whether you're upgrading an existing system or starting from scratch, our team will design Bright Choices that enhances your property's beauty, safety and efficiency.

Select from versatile, decorative lighting that fits your style.

Light up your space with Tampa Electric's Bright Choices—designed for homes, businesses, retail spaces, industrial sites and public facilities.

TAILORED TO YOU

- Turn-key custom lighting systems
- Designed to match your aesthetic and functional needs
- We can acquire and upgrade your existing private lighting system
- Includes professional installation and maintenance

SOLAR OPTIONS

- Dusk-to-dawn operation for worry-free lighting
- Energy-saving LED fixtures
- Powered by renewable energy
- Battery backup and available auto-dimming

SERVICE OPTIONS

- No up-front costs for equipment
- Expert customer service and response
- Lifetime maintenance and repair included
- Ideal for new builds and system retrofits

LED ADVANTAGES

- Lower energy use and maintenance
- Long lifespan (50,000+ hours)
- Durable and vibration-resistant
- Crisp, natural-looking illumination
- Eco-friendly and low-glare lighting

Get a free outdoor lighting assessment.

Maximize the safety, efficiency and beauty of your property. Our no-cost assessment includes:

- Evaluation of your existing system, including wiring, poles and fixtures
- Complimentary photometric analysis
- A proposed design that meets industry recommendations
- A review of available upgrades or customized lighting options to enhance your lighting efficiency and performance
- Tips for improving outdoor comfort and security

Most assessments take less than 30 minutes.
