Transaction Set 810 - Utility to Customer Version 4010.3

Jan 17, 2017

# Summary of Changes

| August 24, 2001 | Version 1.0 - Initial Release 810 y. 4010   |
|-----------------|---|
| May 07, 2009    | Version 1.0— Initial Release 810 y. 4010.1  |
| Dec 09, 2016    | Version 1.0 – Initial Release 810 y. 4010.2   |
| Jan 12, 2017    | Removed Amount Qualifier Code of YB from Balance Detail segment on page 15. BAL*P*YB and BAL*M*YB are not provided. |
|                 | Updated SAC04 for Agency Service, Promotion, Allowance or Charge Code on page 28                                    |
|                 | Updated TDS segment for more clarification on page 34   |
|                 | Updated SAC04 for Agency Service, Promotion, Allowance or Charge Code on page 36                                    |
|                 | Added separate DUNS Number for Electric and Gas bills in N104 on page 11  |

## Introduction:

This draft standard for trial use contains the format and establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to provide for customary and established business and industry practice relative to the billing for goods and services provided.

## Functional Group ID = IN

#### **Transaction Set Notes**

Number of line items (CTT01) is the accumulation of the number of IT1 segments. If used, hash total (CTT02) is the sum of the value of quantities invoiced (IT102) for each IT1 segment.
