# Rising natural gas prices will affect Tampa Electric bills in 2021.

Although customer bills will increase, they will still be among the lowest in Florida and well below the national average.

## Here's what will affect bills in 2021:

#### Fuel

The pandemic initially reduced demand for natural gas, which drove prices to historical lows during 2020. As the economy begins to recover, natural gas demand will increase this winter and during 2021, causing natural gas prices to increase. Tampa Electric will continue to utilize solar power and clean, affordable natural gas to keep customer bills low.

#### Continued Investment in Solar

Providing safe, reliable and clean energy is our priority. We will add additional solar in January to produce clean power for all our customers. By 2023, Tampa Electric will have enough solar to power more than 200,000 homes and businesses—more solar per customer than any other utility in Florida.

#### **Storm Protection Charge**

Starting in January, you'll see a new line item on your bill called the Storm Protection Charge. It will support the company's approved Storm Protection Plan, which strengthens our electrical infrastructure that delivers power to your home or business. These investments will help minimize power outages and reduce power restoration time. In addition, this change includes a base rate reduction for some stormhardening activities which will now be recovered through the storm protection charge.

## More about your lighting rates.

We've provided details for all lighting fixtures and poles on this sheet. The energy charge includes conservation, environmental and capacity cost recovery charges of 0.339 cents per kilowatt-hour (kWh). The fuel charge, 3.136 cents per kWh, is used to pay the fuel suppliers. A basic service charge of \$10.52 per month will be added to metered lighting accounts. Rate schedules are subject to gross receipts taxes, city and state taxes, and franchise fees. where applicable.

#### We're here for you.

For questions about lighting, **visit tampaelectric.com/brightchoices** or call **888.223.0800** and follow the prompts for street lighting to speak with a representative.
