## Bills to increase less than 1 percent

The Florida Public Service Commission approved an increase in Tampa Electric's base rates and charges effective with September bills.

As part of Tampa Electric's base-rate settlement agreement, the company may adjust bills if interest rates reach certain levels. With rising interest rates, Tampa Electric must pay more to borrow money, and those costs are shared by all customers. Commercial and industrial customer bills will increase by less than 1 percent.

As costs for necessities continue to rise, we want to help. We partner with community agencies offering programs that support customers in need and offer flexible payment arrangements. More information on resources and

programs can be found at **tampaeletric.com/updates**. We also offer more energy-saving programs than any other utility in the state to help customers manage energy costs. Learn more and sign up at **tampaelectric.com/bizsave**.

## More about your bill

If you are interested in more details about the components of your bill, please refer to the Understanding Your Charges information page on the back of your bill or view your bill online at **tecoaccount.com**.
