

# Lower bills coming in January

## 2019 Tampa Electric bills

Here's why the price you'll pay is at its lowest in 13 years

### The result

**Residential and small business bills are dropping about 8%.  
Commercial and industrial bills are dropping about 8-10%.**

\*Environmental compliance costs have decreased due to our increased use of cleaner fuels.

\*Costs of new energy conservation programs.

Beginning in January, your bill will reflect Tampa Electric's lowest rates in 13 years. Commercial and industrial customers will see bills drop by about 8 percent to 10 percent, depending on usage. The decrease, approved by the Florida Public Service Commission, is a result of certain factors of the bill going down and others going up. Costs going down include fuel and the benefits from the previously approved tax reform. Costs going up are base rates for increased solar and conservation programs. Overall, Tampa Electric bills are decreasing and remain among the lowest in Florida.
