

Vintage rates continue in 2019

Can you think of anything you purchase today that's the same price as six years ago? Starting in January 2019, your energy costs dropped compared to your 2018 bill, depending on usage. Starting in April, your electric bill should remain below 2018 levels, depending on your usage, even when the fuel portion of your bill is adjusted upward due to increasing costs of natural gas. Fuel costs are passed through from fuel suppliers to our customers with no markup or profit to Tampa Electric.

Starting in April 2019 and continuing through the end of this year, large commercial and industrial customers will see an increase of 4 percent or greater, depending on usage. But even with this increase in fuel costs, bills will be lower than last year and remain among the lowest in the state. In fact, you'll be paying a lower amount for electricity than you did in **2013**. This is all part of our commitment to safely provide reliable, affordable power to you.

We can help you manage your energy usage and save money. Did you know Tampa Electric offers more energy-efficiency programs than any other electric company in the state? Check them out at tampaelectric.com/bizsave and get started saving.

More about your bill

If you are interested in more details about the components of your bill, please refer to the *Understanding Your Charges* information page on the back of your bill.
