

# Tampa Electric reduces bills again.

We understand these are challenging times and that's why we're pleased to share that your lighting bills will drop, as approved by the Florida Public Service Commission. The bill reduction will be effective during the months of June through December 2020.

## Here's why you'll pay less beginning in June 2020

**Fuel.** Due to lower natural gas prices, Tampa Electric requested a significant decrease to customer bills. Because of the unusual circumstances of the coronavirus pandemic, the utility sought to accelerate the savings for customers, beginning in June. For the months of June, July, and August, customers will receive a temporary fuel credit on their bills. In addition, the fuel charge for the months of June through December will be reduced.

**Capacity.** Customers will receive a credit on their bills for capacity charges, the cost of buying power (or 'capacity') from the energy market, during the months of June through December.

## More about your lighting costs

We've provided details for all lighting fixtures and poles on this sheet. The energy charge includes conservation, environmental and capacity cost recovery charges of 0.356 cents per kilowatt-hour (kWh). The fuel charge, 2.614 cents per kWh, is used to pay the fuel suppliers. A basic service charge of \$10.52 per month will be added to metered (customer-owned) street lighting accounts. The three-month fuel credit of (1.427) cents per kWh will be applied during the months of June through August 2020. Rate schedules are subject to gross receipts taxes, city and state taxes, and franchise fees, where applicable.

Have questions about your lighting account? Please visit [tampaelectric.com/brightchoices](http://tampaelectric.com/brightchoices) or call us and follow the prompts for street lighting to speak with a representative:

**Hillsborough County** (813) 223-0800

**Polk County** (863) 299-0800
